The AGM approved

to allow three upper secondary school classes, invited guests, and representatives of the press and other media to attend the AGM, however, without allowing any photographs being taken or any recordings of TV, video or sound of the AGM;

§ 13

Agenda item 13

Transfer of treasury stock for the completion of the Long-Term Variable Compensation Program 2007

The Chairman presented the board of directors' proposal for transfer of no more than 13,600,000 B shares in the Company to the employees and transfer of no more than 3,400,000 B shares in the Company effected on a stock exchange for the completion of the Long-Term Variable Compensation Program 2007.

The Chairman informed that the two proposals – transfer of equity stock in the Company to employees and transfer of equity stock effected on stock exchange - would be voted upon by the AGM as one proposal, and in the event the AGM would not approve the proposal, the AGM would then vote on the alternative proposal for financing by an equity swap agreement with third party.

Further, the Chairman informed that pursuant to the Swedish Companies Act, a valid resolution for transfer of own share to employees requires that no less than nine tenth of the votes cast as well as the shares represented at the AGM have to be in favor of the proposal and that abstaining from voting is the same as voting against as far as the number of shares represented at the AGM is concerned.

Following voting with the voting units, it was established that 1,622,731,589 (98.518 percent) of the votes represented at the AGM and 5,230,500,398 (95.398 percent) of the shares represented at the AGM had voted in favor of the board of directors' proposal for transfer of equity stock in the Company for the completion of the Long-Term Variable Compensation Program 2007, whereby the Chairman stated that the AGM had resolved to approve the board of directors' proposal pursuant to **exhibit 7**.

§ 14

Agenda item 14 ***Implementation of a Long-Term Variable Compensation Program 2008 etc.***

The Chairman informed on the evaluation made of previous long-term variable compensation programs and presented the proposal of the board of directors for a Long-Term Variable Compensation Program 2008 (LTV 2008) that is based on the same principles as the Long-Term Variable Compensation Program 2007.

The Chairman noted that the board of directors' proposal for LTV 2008, **Exhibit 8.1 and 8.2** had been presented in principle in the notice to the AGM and the complete proposal had been posted on the Company's web page on March 3, 2008. The complete proposal had also been handed out to the shareholders at the AGM.

Further, it was recorded that pursuant to the Company's Act 19 chapter 22 § the board of directors' statement had been available at the Company, posted on the Company's web page and had been sent to the shareholders upon request as from March 3, 2008, **exhibit 8.1**, page 11.

The Chairman presented the proposal for LTV 2008 and informed, inter alia, that in order to comply with requests from primarily foreign shareholders, the proposal had been divided into three sub-plans and that resolutions will be made on each sub-plan separately. Correspondingly, resolutions on transfer of shares to the participants of the plans as well as transfer of shares on a stock exchange to cover primarily social security charges will be made separately for each plan.

Majority rules

At least two resolutions will be made on each sub-plan, namely on the plan itself and the financing of each plan. A valid resolution for each plan requires simple majority, i.e. at least 50 percent of the votes cast must vote in favor of the proposal. The proposal for financing of each plan, respectively, by transfer of treasury stock to employees, directed cash issue of shares, and directed acquisition offer must be resolved upon in one package. Therefore, a valid resolution on each separate proposal requires that no less than 90 percent of the votes cast as well as the shares represented at the AGM have to be in favor of each financing proposal. In the event, the AGM would have to deal with the alternative financing proposals of each plan by a so called equity swap agreement, simple majority is required for the proposal to pass, which has been confirmed by the Aktiemarknadsnämnden (Securities Council).

After commenting and answering of questions from shareholders, the AGM was prepared to resolve on the proposals and the Chairman stated that the discussion was concluded.
